Chapter 1 **Easy Cash 4 Ads**

You, Do What to Make Money Online Right?

No wasting time, no over-thinking, no worrying about past experiences - you have to take a leap of faith and do what you see is working for others. So.. do you want to know what you need to do to make money online? It's really simple.

With this affiliate plan you can generate \$10.00 Instant payments directly to your account. Once you get your viral cash going, you get these payments over and over. There are no monthly costs. Once you get it going there is not stopping the flow of cash and traffic.

Easy Cash 4 Ads compensation plan is a 2-up system where your first two sales (which they refer to as qualifier sales) are passed up to your sponsor. Everybody has to make these 2 qualifier sales before they can start their first income leg which means the longer you are in the system, the more likely it is you will actually make a good chunk of money.

The 2-up compensation plan and why it works. EC4A [6 Min Video](#)

On a simple 1-up where only your first sale is passed up to your sponsor, your income can quickly come to a standstill if the last person you referred can't or won't refer anyone. This is assuming you only started one income leg, but you can still see why this method is doomed to fail. 1-ups are typically associated with get-rich-quick schemes and our advice would be to stay away from them. [More Information](#)-Full Page

What makes the 2-up compensation plan different is that with each level you reach, the risk of your income coming to a halt is effectively halved. Continue a few levels down and it becomes almost impossible to stop it.

At A Very Low Cost To Set and Forget It After Just 3 Sign Ups

The total cost to join is a one-time \$19

\$9 is for your hosting and the remaining
\$10 goes to your sponsor.

Chapter 2 Unstoppable Traffic *To A Website Of Your Choice.*

Officially, everybody in your income leg/s will see your full page ad for 25 seconds each time they log in. This can be extremely effective when you plug in one of your other affiliate programs .

Any new members you get into your income legs, whether directly referred or passed up from the people in your EasyCash4Ads legs, will see your ad every time they log in to their back-office, but only for the first two weeks. After two weeks they will see a random member's ad. Not only does this put your ad in front of more eyes than simply the people in your leg/s, it also has the added benefit for newbies and those members who are slow at referring of getting a lot other people to look at their offer.

The back-office is divided in to 2 sections when it comes to affiliate resources to make it easy for newbies to start and work their way up to the more in depth tools without getting overwhelmed. Talking about tools, the capture pages and splash pages are almost works of art and sure to draw in visitors.

They also have a **complete follow-up system** designed to attract new members with a great material and cleaver and outrageously designed capture pages. They also send members a copy-and-paste email to send to prospects who opted in to receive more information. What makes this copy-and-paste email especially powerful is that they managed to create an email for members to send out which actually does a hard sell (yes, you read that right), but they disguise it as a very innocent and sincere email.

Chapter 7 How To Rebrand This Ebook

Below is a screenshot of what you will see when you open the Rebrander... (Some portions may differ, eg: actual list of text and Hyperlinks displayed, PDF Filename, etc)

When the application is loaded you will see a progress bar at the bottom left of the screen displaying the start-up progress. Under normal circumstances the user will not notice the progress bar because start-up is typically very fast (less than 2 seconds). Its purpose is primarily for heavy-duty PDFs containing hundreds of links that require Rebranding.

How can I see the PDF before it is Rebranded?

There is a button at the top-left of the Rebrander named Preview

when clicked - will extract and display the unbranded PDF file for you. This is a convenient way of getting an idea about what you are working on before applying the Rebranding process. Clicking this button is not a necessary step for Rebranding. I have added it purely as a convenience. Its aim is to reduce your support requests by answering the question “What does this PDF look like?” before it is Rebranded.

Replacing / Rebranding Text & Links

It doesn't get any easier than this.

You click on the item you want to rebrand. The selected item instantly becomes editable (just like in a Word Processor) and you can modify it to whatever URL or text you choose. While editing a text item or Hyperlink, the icon next to it changes from to in order to clearly indicate you are modifying this item.

How do I know which items I've modified? It is very easy to see which items have been modified from their original values.

All modified Text and Hyperlinks have a icon next to them when their value has been changed by the user. If at any time the original value is re-entered after it was modified, ViralPDF remembers what the original value was and will display the **unmodified item** icon next to it once again because this item has been returned to its original form.

How can I start from scratch if I screw it all up?

Again, this is a one-click process to restore the original values to what they were when you loaded the Rebrander. Just click on the **Reset Values** button on the left-hand side of the Rebrander.

Saving Your Changes

Once you're satisfied you have made the necessary modifications to the available Text and Hyperlinks, you can click the **Rebrand** button at the bottom-right to Rebrand your PDF; effectively Saving your changes.

Save your newly branded pdf on your computer for reference and you will distribute the rebrander because your branded pdf is embedded into it, so you will only have to give away one file - the rebrander.

You're All done! Now Share with your Affiliates. Create a splash page or upload your Re-Brander to the download folder of your c-panel if you have a hosting account. Then send a clean location url of the download link to your prospects, via email or capture page.

The simpler and easiest way to distribute the ebook and generate leads, is to create a capture page . Use my ebook cover and capture page below as a guide. You will need to replace the input forms with your own autoresponder service scripts. You will be giving away the PDF Version with your branded links. Give away at least 10 ebooks.

Chapter 8 – Note From the Author

A Gift For You.

G. Brown, Artist, Musician and Internet marketer.

I created this e-book because I wanted to come up with a totally free valuable give-away - and I do mean totally free. I think it is sometimes best to give sometimes, rather than nickle and dime every comma, dot , and link.

It is useful, easy, simple, and professional as possible. I don't profess to be the best writer, but I believe this is a good strong tool of great value that can work for newbies too who, sometimes, struggle with getting referrals. The product report is linked with engaging, proven, affordable , dependable programs that are lucrative and I feel will be around for a long time.

All the best,

G.Brown – [drawn2themusic](http://drawn2themusic.com).
